PROFESSIONAL
EXPERIENCE

Software Engineer Intern | Central Police Office (IG Office), Karachi **Jul 2025 – Sept 2025**

Key responsibilities:

- Developed systems including a User Management System, Real-Time Chat App, and AI Data Analyst platform. Utilized MERN stack, Python (FastAPI), and Socket.io to build secure, scalable, and real time applications

Remote Work | Full-Stack Developer Feb 2025 – 2026

Key responsibilities:

- Engineered an automated AI Voice Assistant for clinic appointments, reducing manual workload through intelligent automation

EDUCATION

Bachelor of Science in Software Engineering Muhammad Ali Jinnah University (MAJU)
Feb 2022 – Feb 2026

Intermediate in Pre-Engineering Government City College
2020 – 2022

PROJECTS

- **AI- Powered Clinic Appointment system**

Built an AI Voice Assistant for a clinic appointment system, creating a fully automated scheduling process.

Tech: React.js, Node.js, Python (FastAPI), Grok API, MongoDB
